CONSCIOUS LIVING – FOR THE BENEFIT OF OUR EARTH

To appreciate our planet and to keep it healthy for future generations, responsibility and action are required. Responsibility for people, animals and the earth. This awareness has been firmly anchored in our mission statement from the beginning. For this reason, we support sustainable agriculture through organic and biodynamic cultivation, inherent nutrition of people and animals and a friendly and fair social coexistence. The close cooperation and solidarity with our biodynamic and organic farmers is just one example of this: It strengthens our community of interests and thus the chances of success for a long-term vitality of our earth.

FROM CULTIVATION TO MANUFACTURE

Strictly speaking, we are passionate product companions: From the selection of organic and biodynamic raw materials and value-preserving processing to marketability - we accompany the cultivation and production process with heart and a watchful eye. We pay attention to every single production step from our manifold range. As pioneers of the biodynamic and organic movement, we are of course certified and test our products internally and externally on a regular basis.

OPEN-POLLINATED SEEDS

Through our project 'open-pollinated seeds', we financially support the breeding and cultivation of non-hybrid varieties, so that they can be used by our farmers.

LIVELY SOIL

High-quality, nutrient-rich foods can only thrive in vital soil. By spreading compost, using biodynamic compounds and further measures, biodynamic farmers stimulate the diversity of soil organisms and the water absorption capacity of the soil as well as they build up humus. Humus, in turn, stores huge amounts of carbon and thus contributes to climate protection.

demeter

Natural Cool

Our Biodynamic Fruit

Harvested at optimal ripeness and immediately deep-frozen to preserve vitamins and the unique taste of each variety.

Natural Cool

Our Biodynamic Vegetables

Immediately deep frozen after being harvested at optimal ripeness. This way important nutrients and the typical flavor of each variety are optimally preserved. Quality you can taste.

You will find many other varieties in our large range.

www.natural-cool.com

QUALITY BY CONVICTION

You can enjoy Natural Cool vegetables with a clear conscience. The cultivation according to biodynamic guidelines gives our vegetables their vitality. They are harvested at optimal ripeness and immediately deep-frozen. This preserves the distinct taste and the valuable vitamins, minerals and micronutrients. Our Demeter farmers work consistently to offer our customers the best quality all around - exclusively according to biodynamic guidelines. Our Natural Cool products stand for tradition, passion and responsibility for people and the environment - quality you can taste.

Natural Cool

Our Biodynamic Fruit

Harvested at optimal ripeness and immediately deep-frozen to preserve vitamins and the typical taste of the variety.

www.natural-cool.com

HIGHEST STANDARDS AND BEST QUALITY

In order for our bio-dynamically grown fruit to develop maximum flavor and vitamins, it takes not only the right weather and optimal harvest time, but also proper care of the plants. With passion, our Demeter farmers ensure that the fruits can ripen in the best conditions and develop their full flavor and an abundance of nutrients and vitamins. After harvesting, the fruits are immediately shock-frozen one by one - a particularly gentle preservation process that preserves the important ingredients and the rich flavor of the fruits.

Natural Cool

Oven Potato Chips

Grown and harvested by our Demeter farmers according to biodynamic principles and made from fresh whole potatoes. Free from sugar and additives. Pure quality you can taste.

www.natural-cool.com

BEST QUALITY AS FOUNDATION

A healthy potato plant is the essential factor for a maximum of vital nutrients and the taste of a potato. For the potato plant to be healthy, it needs a healthy soil. Our Demeter farmers ensure that the crop can ripen in the best conditions - naturally according to biodynamic principles. The vitamins, minerals and vital quality of all our frozen products are maintained through gentle processing that preserves their value. It stands to reason that we do not use any additives, colorings, flavorings, genetically modified substances or fillers in the production process. Quality that you can taste.

TRADITIONAL VARIETY

Our pizza owes its delicious crispy base to the traditional dough processing with organic yeast. After a 24-hour resting period, the dough is shaped and topped by hand. The pizza gets its authentic Italian touch by pre-baking in a stone oven with wood fire. The original Alsatian tarte flambée is made in a small Alsatian village according to an old family recipe. The crispy, thin base is traditionally topped with bacon or for a vegetarian alternative, mushrooms. For vegetarians and vegans - toppings of all sorts can be found among the organic pizzas, pinsas and tarte flambées! As well as for those who have to avoid gluten, soy or lactose.

Wood-fired Pizza Margherita

topped with sunripened tomato sauce and cheese, ready to bake

Item number 233102

Allergens: Wheat, Gluten, Milk

Ingredients

Dough: WHEAT FLOUR*, water, sea salt, sunflower oil*, yeast*, Topping: MOZZARELLA CHEESE* 22,7% (with microbial rennet), tomato puree*, sunflower oil*, onions*, garlic*, basil*, oregano*, pepper*

PINSA

Delightful Enjoyment

What actually is a Pinsa? The special thing about a bio inside Pinsa compared to a pizza is the dough. Instead of wheat flour, whole grain rice flour and whole grain millet flour are used for the Pinsas. As a result the Italian classic is not only gluten-free, but also avoids allergens such as soy and lactose. The long dough rise with a resting time of 48 hours ensures that the dough is light and fluffy on the inside and crispy on the outside.

Pinsa Funghi

with wholegrain rice flour, topped with pizzaiola sauce, lactose-free mozzarella cheese and mushrooms, ready to bake

Item number 233154

Allergens: Milk

Ingredients

Dough: gluten-free flour mix* (wholegrain rice flour*, potato starch*, corn starch*, whole grain millet flour*, thickener: guar gum*), water, sunflower oil*, extra virgin olive oil*, sea salt, raw cane sugar*, yeast* Topping: Pizzaiola sauce* 13% (tomatoes*, extra virgin olive oil*, salt, garlic powder*, black pepper*, onion powder*), lactose-free mozzarella* 13% (lactose-free MILK*), chopped tomatoes*, mushrooms* 7%, oregano*

BEST FLAVOUR AND QUALITY - EVEN IF IT HAS TO BE FAST

We are convinced that food should offer more than just nutrients. That is why we offer an assortment of ready meals in Demeter quality. The raw materials are obtained from regional cultivation and processed manually to maintain their value. Only fresh ingredients, such as fresh pasta plates or tomato sauce, are used in the production. This way, we not only preserve the vitamins and minerals, but also the vital quality of the food- for body, mind and soul. Naturally delicious!

RESPECT FOR THE ANIMAL

Best beef from German Demeter animal husbandry - naturally processed without additives. Demeter animals remain vital thanks to the appropriate animal husbandry with plenty of space in the barn, daily grazing and the opportunity to move around as they like. The feed from our own farm, in Demeter and organic quality, ensures, in addition to sufficient exercise, the high quality of the meat. The ruminants are kept in small herds to ensure healthy ranking and social behaviour. The cattles are allowed to keep their horns and can live in a natural and appropriate way.

NATURAL. SOCIAL. SUSTAINABLE.

Wild fish from WILD OCEAN comes exclusively from sustainable, environmentally friendly fishing by local fishermen off the coast of Iceland. The fisheries management protects the population and has proven itself for many years to be one of the strictest in the world. Avoiding (excluding) any kind of additives and pressed fish, our fish fillets are absolutely natural. All breadings of the "WILD OCEAN" products are refined exclusively with raw materials from organic agriculture. This guarantees quality and healthy nutrition.

PREMIUM-QUALITÄT FÜR EINE BEWUSSTE UND NATÜRLICHE ERNÄHRUNG!

Salmon Fillets from sustainable organic aquaculture

Thanks to balanced hand-feeding with ecological forage in the clean and oxygen-rich waters off the West Irish coast, our Atlantic salmon grows an aromatic fish meat.

www.bio-inside.com

FISH AND SEAFOOD FROM SUSTAINABLE ORGANIC AQUACULTURE

The Atlantic salmon from bio inside develops a particularly firm and aromatic meat thanks to the balanced hand feeding with ecological feed and the clean and oxygen-rich waters off the west Irish coast. The particular quality and the unique taste of the mussels is ensured by the enormous nutrient richness of the Gulf Stream and the strong tides on the Irish shores. Our bio inside shrimps are kept in ecologically intact pond systems with plenty of space. This way they find a large part of their food in form of algae and plankton themselves.

Organic Salmon Filets

with skin, from sustainable organic aquaculture in the clean waters off the west coast of Ireland

Item number 235036

Allergens: Fish

Pan do Mar

CANNED FISH FROM SUSTAINABLE FISHERIES

www.pan-do-mar.de

PAN DO MAR – BREAD OF THE SEA

High quality canned fish from sustainable fisheries. Caught by small-scale fishermen using traditional methods and refined with ingredients from organic farming.

WHO WE ARE AND WHAT WE DO

Conservas Antonio Perez Lafuente is a small family business that has dedicated itself to the artisanal production of canned fish since the beginning of the last century. The manufacture is located in Vilanova de Arousa, a small, picturesque coastal town in the northwest of the Iberian Peninsula. “Pan do Mar” is a joint project with us, Demeter-Felderzeugnisse GmbH. The name of the brand “Pan do Mar” is intended to reflect the history and philosophy of the family business. It is based on the respectful and sustainable use of marine resources and their processing using traditional methods.

PRINCIPLES THAT DETERMINE OUR ACTIONS

ARTISAN PRODUCTION

The fish is carefully cleaned by hand, filleted and prepared according to traditional recipes of Galician cuisine.

SUSTAINABLE FISHING

All fish comes from small-scale fishermen who work with sustainable fishing methods in accordance with the criteria of the FAO and environmental organizations.

INGREDIENTS FROM ORGANIC FARMING

Great care is taken in the selection of organic ingredients and their manufacturers. The products made from fish, mussels and seafood are individually refined with extra virgin olive oil, vegetables, spices and vinegar from organic and biodynamic cultivation.

Please feel free to request a price list from us, if interested.

How to order:

email: pdm@felderzeugnisse.de

phone: +49 6257 93 40 - 59

fax: +49 6257 93 40 - 49

You can reach us during our office hours Monday - Friday 8:00 a.m. - 4:45 p.m.

Pan do Mar

We are a family business that has been producing canned fish since the beginning of the last century. Our manufacture is located in Vilanova de Arousa, a small coastal town in the northwest of the Iberian Peninsula.

Pan do Mar, the brand under which we market our products, reflects a part our history and our work philosophy. It is based on the sustainable use of the gifts of the sea, which are processed using traditional methods.

Tradition and progress

With pride we look back on a centuries-old tradition of canning manufacturers. That is why we combine traditional knowledge of fish processing with modern technology. Compliance with the guidelines regarding hygiene and product safety are particularly important to us.

Working fishermen

The fish is caught in the Atlantic in small boats near the coast using traditional methods and processed in the factory in Galicia. This creates jobs and strengthens regional structures.

Pan do Mar

Artisanal production

The fish are cleaned, filleted and traditionally prepared according to original Galician recipes by hand. We are concerned about the increasing overfishing of the seas and the destruction of the habitat. With our sustainable fishing we want to make a contribution to minimizing the threat to marine life and the sea.

Sustainable fishing

All fish that we process come from sustainable fisheries. Depending on the species, they are fished with selective fishing gear. Pole and line and purse seine are used, fishing methods that conserve the fish stocks and minimize unwanted bycatch. The use of trawls is completely avoided.

Organic ingredients

Our interest in protecting nature determines the choice of ingredients that refine our fish and seafood. Therefore, all ingredients come from controlled organic or biodynamic cultivation.

HIGH-QUALITY CANNED FISH AND SEAFOOD FROM SUSTAINABLE FISHERIES

The fish for Pan do Mar is caught in small fishing boats near the coast, using sustainable traditional methods. In addition, fish and seafood are refined exclusively with ingredients from organic farming. The extraordinary products are filleted and filled into cans or high-quality glassware by hand. Original Galician recipes make the products a pleasure to eat with bread, pasta or in sauces or salads. Try the unique taste of the treasures of the sea by yourself!

TUNA

Tuna in brine

from sustainable fisheries, caught individually with a fishing rod, marinated in their own juice

Item number 285101

Allergens: Fish

Ingredients

TUNA**** (Katsuwonus pelamis) (75%), water, sea salt
